

The European Probiotic Association (EPA) has the pleasure to announce the new edition of the Jules Tournut Probiotics Prize.

The prize worth 2000 € is awarded to young scientists from all countries working on probiotics with a PhD or Master Thesis published in 2012/14.

Scientific work should involve innovative concepts, practical applications, or advanced knowledge of mechanisms of action in the field of probiotics for animal feeding. Areas of recognized expertise are nutrition, physiology, microbiology and immunity.

The Jules Tournut Probiotics Prize will be granted during Eurotier in Hannover, November 11-14, 2014.

For further information and application form, please contact the EPA Secretary General at secretarygeneral@asso-epa.org

Dossiers (English only) should be mailed electronically in a single pdf file to the EPA Secretary General (secretarygeneral@asso-epa.org), no later than **February 28, 2014**.
